

# Stay Safe with Salt/Sand Shaker Bottles

Winter slips and falls are one of the leading causes of workplace injuries and a large contributor of workers' compensation costs.

**Between 2015 and 2020, slips, trips and falls on ice and snow cost UH policyholders an average of \$11,493 per claim.\***

Winter slips and falls often occur as employees step out of their vehicles – salt/sand shakers can make the difference.

- Fill and ship a salt/sand shaker to your work at home employees to help them keep their walkways free from ice this winter.
- Prepare shakers with salt or sand and place them in employee common areas for grabs.
- The perfect size to fit into a vehicle cup holder – encourage your team to keep a salt/sand shaker in their car for quick access.
- Provide a salt or sand station for employees to refill their shakers on a regular basis.

Help your employees stay on their feet this winter season, order your shakers today!
